CUSTOM MADE DREAM WEDDING

Professional catering is becoming an increasingly important part of weddings as it adds that certain something to the whole event and makes it even more romantic and magical. The team of the Pri Lojzetu restaurant is especially aware of that. For more than a decade, the restaurant has its place in Zemono Castle, just before the village of the same name between Vipava and Ajdovščina. In the magical ambience of a renaissance castle, a unique and outstanding monument, you can have an unforgettable wedding totally adjusted to your wishes and desires.

Every marriage at Zemono Castle is unique. It offers peerless cuisine with a rich tradition that has passed through generations from 1897, harmonious and subtle flavours of the Vipava valley and chefs who can prepare food exactly according to your taste. Zemono Castle prides itself upon an excellent wine list that encompasses all Slovenian wine regions and numerous foreign wines. Among domestic wines, ones that need to be mentioned are local wines from the Vipava valley, Goriška Brda and Kras.
